

MILLER IS REPUBLICAN NOMINEE FOR GOVERNOR

UT HUGO WILL CARRY FIGHT TO PRIMARIES

UPPORT WADSWORTH

on Hooker Withdraws From Contest For Governorship To Be Matched Against Senator

Saratoga Springs, July 28.—A committee state ticket, headed by Nathan Miller of Syracuse as the candidate for governor, was recommended to the rolled Republicans by the unofficial republican state convention here today.

The convention also voted by an overwhelming majority to support Senator James W. Wadsworth Jr. in his fight for the nomination to succeed himself.

The balance of the state ticket was designated as follows:

Lieutenant governor, Jeremiah O. J. Lyons of New York; comptroller, James A. Wendell of Monticello; attorney general, Charles D. Swann of Livingston; treasurer, N. Monroe Marshall of Franklin; state engineer and surveyor, Frank M. Williams of Oneida; associate judges of the court of appeals, Frederick A. Kane of Kings and Emory A. Chase of Greene.

Miller Wins on Third Ballot.

A hard-fought contest for the gubernatorial nomination was ended with victory for Judge Miller on the third ballot. By vote of the convention, the nomination was made unanimous, but Secretary of State Francis M. Hugo is Victor's most formidable opponent. In a formal statement made public after adjournment, declared that he would carry his fight into a September primaries.

This decision on Mr. Hugo's part came as a surprise to the great majority of the delegates. The motion to take Judge Miller's nomination unanimous was offered by former State Senator, Elton R. Brown of Jefferson county, which is Secretary Hugo's district, and was supported by the Jefferson county delegation. The convention interpreted this action as signifying that Mr. Hugo would abide by the decision of the convention and the action of Senator Brown was greeted with thunderous and prolonged applause.

Secretary Hugo said in his statement:

"The action taken by today's designating convention has not in the slightest degree altered my determination to enter the Republican primaries as a candidate for the nomination for governor. No one has been authorized to make any statement for me to the contrary, and no one will be. I am in the fight to the finish.

"My determination to be a candidate for the nomination for governor is reached more than 15 months ago, long before there was any talk of designating a convention. No signing convention was held by a Republican party since the enactment of the direct primary law to the present day. The action today, when a convention presumed to designate Judge Miller, was nothing more than straw vote. Other straw votes which have been taken have shown that a majority of the Republican voters are with me.

Voters Are Behind Hugo.

"Furthermore, the demonstration in a convention over my candidacy showed who has the voters behind me. My petitions are being prepared and filed and there will be 100,000 signatures of Republicans who want me to make the run. I am determined to go ahead without hesitation.

Senator George F. Thompson of Niagara Falls also will enter the primaries against Judge Miller. Senator Thompson withdrew from the convention today after the adoption of a resolution calling for the designation of a ticket. His name was not presented to the convention and there is not a single vote cast for him. The delegates from his senatorial district, comprising Niagara and Orleans counties, divided their votes among half a dozen other candidates. The name of Elton H. Hooker of New York, formerly national treasurer of the progressive party, was not placed before the convention in connection with the contest for the gubernatorial nomination, for which Mr. Hooker has waged an active campaign. He was, however, by delegates from the Albany tier of counties as their candidate, for the United States senate opposition to Senator Wadsworth. He polled only 97 votes against 255 for Senator Wadsworth.

Mr. Hooker explained his withdrawal from the contest for the governor-

ship by saying that when he entered the race he believed that Judge Miller could not and would not accept the nomination.

Refuses to Oppose Miller.

"Learning that Judge Miller was to be the convention's choice," he said, "I refused to permit my name to be presented for the nomination and released the delegates who were pledged to me. I shall support the convention's choice for governor in the interests of a state and national victory."

That the "old guard" leaders were in complete control of the situation was shown not only in the designation of Judge Miller, but also in the selection of Jeremiah Wood of Nassau as the candidate for lieutenant governor. It had been generally believed that Senator Charles W. Walton of Ulster would have a clear field for the place, but in the last hours of the convention it was decided that for geographical reasons the office should go to Long Island. The order went forth, and Mr. Wood was named on the first ballot by a safe margin.

Deputy Comptroller Wendell won a clean-cut victory over Senators Alvan W. Burlingame Jr. and Charles C. Lockwood, both of Brooklyn. It was considered a personal rather than a political triumph and was brought about by effective missionary work on the part of Mr. Wendell's friends.

Senator N. Monroe Marshall of Franklin needed only one ballot to defeat Assemblymen John T. Donohoe of Putnam, Thomas W. Whitte of the Bronx, Jay Farrier of Madison, and Charles D. Millard of Westchester.

The renomination of Attorney General Newton and State Engineer Williams, and the designation of John J. Lyons of New York for secretary of state, were by acclamation.

ARMY NOT IN POLITICS

New Order Prevents Officers Taking Any Active Part in Political Campaigns.

Washington, July 28.—Army officers and others connected with the military establishment are prohibited under an order issued today by Secretary Baker from taking any "active part in political management or in political campaigns," or from "using their official position to influence the result of an election."

Secretary Baker said the order was not directed at Major General Leonard Wood, who sought the nomination as the Republican candidate for the presidency and who since has promised his active support to Senator Harding. Mr. Baker explained that General Wood's activities in politics had been with his full knowledge and consent and that the general's position has been exceptional, inasmuch as he was a candidate at the Chicago convention. He added that it was not the policy of the department to stand in the way of the people's choice of an officer whom they might want for president.

The war secretary would not be more specific when asked if the order would affect General Wood's activities in politics in the future, saying that the order spoke for itself.

MARTENS TO MAKE FIGHT.

New York, July 28.—Ludwig C. A. K. Martens, unrecognized ambassador to the United States from Soviet Russia, at the resumption of his deportation hearing on Ellis Island today, declared he will contend that he is the "accredited" representative of a foreign government and is, therefore, not liable to deportation under the immigration laws of the United States, whether officially recognized or not.

WOMEN OF SOUTH ASK TO SEE COX

Want to Discuss Questions of
"State Rights and Party Honor"
With Democratic Nominee

STUDIES THE DEBS CASE

Cox Will Soon Make Known At-
titude—Senator Harding Con-
gratulates Resolute

Nashville, Tenn., July 28.—Governor Cox was requested today to grant a hearing to the women of the south on questions of "state rights and party honor," in a telegram sent the Democratic Presidential nominee by the Southern Women's League for Rejection of the Susan B. Anthony amendment. It was signed by Mrs. James S. Tinkard of Montgomery, Ala., president-general of the league.

The message declared that "the home loving women of the south, who do not picket, card-index, or blackmail candidates, appeal to you as the leader of the Democratic party to grant us a hearing, not on woman suffrage, which any state can adopt for itself without changing a comma in the federal constitution, but on two fundamental Democratic principles, state rights and party honor."

Cox to Announce Stand Toward Debs.

Dayton, Ohio, July 28.—Response soon will be made by Governor Cox, Democratic Presidential candidate, to the request of P. P. Christensen, of Salt Lake City, the Farmer-Labor party's candidate, to join in an effort to secure the release from prison of Eugene V. Debs, the Socialist nominee. Governor Cox received Mr. Christensen's second telegram today and said that he would reply but not until after he finished drafting his address accepting the Democratic nomination, probably late this week. It is expected generally here that Governor Cox will decline to act in Mr. Debs' behalf. He has received papers from Washington in the Debs case.

The governor today put in a full day on his address and planned to work until midnight, as he did yesterday. He dictated to his secretary all day, except for a brief time taken by a few visitors, and the rural quiet of Truistend was broken by the clicking of the typewriter. Several installments were sent to be printed. The governor said he was making rapid progress and also condensing successfully.

One of the most important parts of his address, the governor said, will be held up for a telegraphic transmission on August 7, Notification day. Instead of being contained in the remainder of the address mailed to newspapers, the governor said the insert would be brief but prominent. He would give no indication of its subject.

With the Republican Candidate.

Marion, Ohio, July 28.—A telegram commending the yacht Resolute for her victory in the international races was sent to the New York Yacht club today by Senator Harding, Republican nominee for the presidency. The telegram follows:

"The Commodore, New York Yacht club, New York City.

"Along with all your fellow Americans I want to extend my congratulations on the victory of Resolute. The defender won over a good boat and also over one of the best sportsmen in the world. We could all hope that if the historic trophy is ever lost to us, it might become the reward of Sir Thomas Lipton's splendid and persistent efforts. But as Americans we all take the more pride in winning against such an antagonist. It is the more worth while victory. The wonderful series of races for the America's cup has done very much to create the best of understanding between the two great English speaking nations and it is to be hoped there will be many more such contests."

Harding headquarters made public tonight a letter from Lewis G. Bohmrich, a former Democratic nominee for governor of Wisconsin and a Wilson elector in 1912, pledging support to Senator Harding and declaring the Wilson administration had "strictly invaded and brutally ignored" fundamental democracy.

"I shall, in duty to myself and to my country, be pleased to vote for you and support you," the letter continued, "and there are millions throughout the states, Americans to whom the word 'democracy' is no idle lip service, who feel like I do. Let it be known that a vote for the Democratic ticket this year does in fact mean the endorsement of all the things that have been done by this administration and your victory will be crushing to your opponents."

GERMAN REICHSTAG APPROVES AGREEMENT REACHED AT SPA

(By The Associated Press)

Berlin, July 28.—The reichstag today by an overwhelming majority approved the agreement made recently by the government at Spa with the representatives of the Entente.

GOVERNOR IN UNUSUAL ROLE.

New York, July 28.—Aroused by the scuffling of the guests with an alleged burglar in the Waldorf Astoria hotel here early today, Governor Edwin P. Morrow of Kentucky, rushed from his room clad in his pajamas and helped overpower the intruder who fought desperately to escape.

The intruder, later identified as Peter Hermida, a discharged hotel employee, was held in \$5,000 bail for unlawful entry.

VILLA SURRENDERS TO REENTER PRIVATE LIFE

U. S. Urged to Act to Prevent Battle in Lower California

Calixto, Cal., July 28.—United States Consul Boyle announced tonight he had sent a lengthy telegram to the state department at Washington urging that the United States offer its good offices in an effort to prevent hostilities between troops of the Mexican provisional federal government and those of Governor Cantu of Lower California, which might result from the invasion of Lower California, reported under way by Mexican federal soldiers.

Mexicali, Lower California, July 28.—Esteban Cantu, governor of the northern district of Lower California, announced today he had issued a call to all citizens of the district to resist "invasion" following reports that troops were being sent to Ensenada, on the west coast, and to an unnamed point on the gulf coast.

Governor Cantu said he would use every resource at his command to repel the "invaders," if they came without authority from provisional President de la Huerta. Asked what steps he would take if the troops had such authority, the governor said, "I would leave it to my people to decide."

Governor Cantu said he had 1,000 armed men, including soldiers of the regular army, reserves and police, and equipment for more.

BANDIT AGREES TO DISCONTINUE HIS ACTIVITIES

Will Recognize and
Abide By Laws of the
Huerta Government

WASHINGTON PLEASSED

Recognition of New Mexican
Regime Brought Nearer By
Villa's Action, Officials Say

Eagle Pass, Texas, July 28.—Francisco Villa, bandit idol of the Mexican people and for years a menace throughout Northern Mexico to the government of this country, entrusted defeat Assemblymen John T. Donahoe there to take the first actual step looking to his entrance once more into private Mexican citizenship, as a result of his negotiations with the de la Huerta government, concluded at Sabinas early today.

Advices from Sabinas told also the terms under which the bandit chieftain agreed. In the words of General Eugenio Martinez, commander of the Torreon military zone and personal representative of the de la Huerta regime, to "submission to the de la Huerta government in recognition of its stability and his desire to retire to private life and abide by the laws of the government."

To Be Given Year's Pay.

Under the terms, advices state, Villa is to be allowed a year's army pay for all his soldiers, and permitted to go with them to Torreon under personal escort, where these terms will be carried out. The band will number about 1,800, it is said. At Torreon, the men are to be "mustered" out of Villa's service and each allotted a tract of land, on which to engage in farming. Villa, too, it is said, has been given financial guarantees.

General Martinez, communicating to Eliano Tames, Mexican consul at Eagle Pass, termed Villa's acceptance of the terms as "an act of patriotism."

General Martinez wired that railroad traffic in the Sabinas district was being resumed and that he had ordered all trains to operate on the schedule in effect prior to the interruption. Details of the negotiations, say that the conference for Villa's surrender, conducted on the part of the de la Huerta government by General Martinez, consumed all night, ending at 11 o'clock this morning.

Rumors of slaughters of Sabinas policemen and mutilation of bodies of many women there lack confirmation. Other reports tell of general rejoicing throughout Mexico and of celebrations planned.

Villa was restored to full citizenship and will return to Chihuahua, his old home, it was understood here. Villa also was given a yearly allowance by the Mexican government, the report added, and his men were restored to citizenship and given farming lands.

U. S. WATCHING JAP POLICY IN THE FAR EAST

Occupation of Siberian

COLBY IN CONFERENCE

Seeks to Learn Attitude of British,
Who Also Have Large Interests
in This Territory

(By The Associated Press.)

Washington, July 28.—The American government is understood to be giving close attention to Japanese relations and Japan's general policy in the Far East because of the effect on the questions involved in the recent withdrawal of American troops from Siberia, the signing of the consortium relative to Chinese financial aid, the assumption of control of the Chinese eastern railroad by the Japanese, and the Japanese occupation of Northern Saghalien and the greater portion of the maritime province of Siberia.

Secretary Colby has conferred with Sir Auckland Geddes, the British ambassador here, who brought into the conference Sir Beilby Alston, British ambassador to Japan, who is returning to London on leave. Sir Beilby was in a position to give Mr. Colby the latest information from the Japanese capital, supplementing the views of Roland Morris, the American ambassador to Tokio, who is home on leave of absence.

Large Business Interests.

British interests in China and Japan are regarded here as paralleling to some extent those of America because of the large business transactions between those countries and the British dominions of Canada and Australia, as well as the common desire of the colonial governments and California and other Pacific coast states to find some solution of the problem of oriental labor. The solution of this problem by the British government, in the opinion here, is made more complex by reason of the existence of the Anglo-Japanese treaty, which recently was renewed for one year.

Changes in the status of the Chinese Eastern Railroad have been closely watched. Since this line forms the most valuable branch of the Siberian railroad and affords the only practical communication between the interior of Siberia and Vladivostok, both the United States and Great Britain are understood to desire that its international character be preserved to assure the maintenance of the open door.

U. S. Protest Is Reported.

As to the Japanese occupation of Shaghalien, the United States is known to be reluctant to concur in this move. A dispatch from Tokio today said that the Nichinichi, a newspaper there, had published a statement that the Japanese government had received in inquiry partaking of the nature of a protest from "a certain country" in connection with the intention of Japan to occupy this portion of Siberia.

State Department officials would neither affirm nor deny that the country referred to was the United States, but the general understanding of those in close touch with the situation was that it was the United States.

AUTO THEFTS SYSTEMATIZED.

New York, July 28.—Charged with systematic stealing of automobiles in neighboring states to sell them in this city, five men today pleaded guilty in the federal district court of ten indictments concerning the alleged thefts.

They were Robert Grogan, motor inspector of the state automobile license bureau; John E. Tench, innkeeper at Hollis, L. I.; Christopher Flynn, garage keeper at East Orange, N. J.; Morris Eisenberg, garage keeper at East Fallsburgh, N. Y., and Orlando C. Stephens.

MANY REPORTS AS TO LEROY'S WHEREABOUTS

Authorities in Pennsylvania, Kansas
and Mexico Believe They
Have Slain Woman's Husband

Detroit, Mich., July 28.—With the body found in a trunk in New York last Friday positively identified as that of Mrs. Eugene Leroy, police here were tonight awaiting further reports from various cities where men believed to be the husband of the slain woman have been taken into custody.

Authorities at Saltillo, Mexico, have been asked to confirm reports that a man known as Oscar J. Fernandez had been located there. According to the detective bureau, this report held a possibility that the man wanted had been apprehended, their previous investigations having shown that "Eugene Leroy," "O. J. White," and "O. J. Fernandez" were names used by the husband of the dead woman in Detroit, Saginaw and New York.

A description of the Fernandez reported at Saltillo had not been received here late tonight. Officers now in New York have been instructed to stop at Allentown, Pa., on their return to examine a man giving the name of Leroy held there. Others, it was said, may be sent to Lawrence, Kansas, in an effort to identify a man said to answer Leroy's description.

Officers said the refusal of Allen A. Tatum to accompany local officers here from Birmingham, Ala., would in no way hamper their investigation, for any information Tatum might be able to give them was counted upon merely as an aid to identifying the woman's body.

New Orleans, July 28.—A man answering the description of Eugene Leroy, wanted by the police in Detroit in connection with the trunk murder mystery, is believed by the police of this city to be a stowaway on board the steamship Speedwell, which left here late Tuesday enroute to British Honduras.

IRISH TRAIN CREWS REFUSE TO MOVE MILITARY TRAINS

(By Associated Press.)

Belfast, Ireland, July 28.—Donegal this morning was making frantic telephone appeals to Londonderry for food and supplies. These, however, could not be delivered because train crews refused to move trains with military on board and the military insisted on occupying the trains.

The train, which was stopped at Letterkenny Monday by Sinn Feiners because it was transporting troops, was still there today with the military guarding it.

Masked armed men early this morning held up the Belfast-Dublin train at Newry and took away the mails.

ONE DEAD IN COLLISION.

Erie, Pa., July 28.—William Zimmerman, a track walker of Edinboro, Pa., was killed, and 12 persons were injured, when a passenger and a freight car met in head-on collision on the Northwestern Pennsylvania Electric railway two miles south of here this afternoon. Failure of the freight train to take a switch was given by officials of the road as the cause of the accident.

SMITH TO CONDUCT PROBE.

Bedford Hills, July 28.—Governor Smith arrived here today to investigate personally the riot which occurred here last week at the reformatory for women. The governor, who motored here from New York, was accompanied by Adjutant General Charles W. Berry.

DREXEL-BIDDLE RESIGNS.

Philadelphia, July 28.—Major Anthony D. Drexel-Biddle of this city tonight announced he had resigned as chairman of the army, navy and civilian board of boxing control and as president of the International Sporting club of New York because of pressure of other business.

Under the terms, advices state, Villa is to be allowed a year's army pay for all his soldiers, and permitted to go with them to Torreon under personal escort, where these terms will be carried out. The band will number about 1,800, it is said. At Torreon, the men are to be "mustered" out of Villa's service and each allotted a tract of land, on which to engage in farming. Villa, too, it is said, has been given financial guarantees.

General Martinez, communicating to Eliano Tames, Mexican consul at Eagle Pass, termed Villa's acceptance of the terms as "an act of patriotism."

General Martinez wired that railroad traffic in the Sabinas district was being resumed and that he had ordered all trains to operate on the schedule in effect prior to the interruption. Details of the negotiations, say that the conference for Villa's surrender, conducted on the part of the de la Huerta government by General Martinez, consumed all night, ending at 11 o'clock this morning.

Rumors of slaughters of Sabinas policemen and mutilation of bodies of many women there lack confirmation. Other reports tell of general rejoicing throughout Mexico and of celebrations planned.

Villa was restored to full citizenship and will return to Chihuahua, his old home, it was understood here. Villa also was given a yearly allowance by the Mexican government, the report added, and his men were restored to citizenship and given farming lands.

Optimism in Washington.

Washington, July 28.—Recognition of the new Mexican government by the United States, in the opinion of Mexican observers here, has been brought measurably nearer by the surrender of Francisco Villa.

The status of Villa, so far as the United States is concerned, however, is not greatly changed. The bandit leader is under indictment charged with the killing of soldiers and civilians at Columbus, New Mexico, in 1916, and the placing of himself under the laws of his own country may mean that his extradition will be sought. In such a contingency, the Mexican government might be afforded fresh embarrassment.

A more immediate effect of Villa's surrender, the general official view here is that is removes from the military and political situation what has been the most menacing feature for many years. With Villa peaceful, it is believed generally in Washington, the prospects for the complete restoration of order throughout the country are much better and the probability of the recognition by the United States proportionately increased.

Bedford Hills, July 28.—Governor Smith arrived here today to investigate personally the riot which occurred here last week at the reformatory for women. The governor, who motored here from New York, was accompanied by Adjutant General Charles W. Berry.

"It is my intention to occupy immediately the whole of the territory up to a line drawn west of Baikal, 150 miles, including in the occupation the Manchurian concession zone. It will take about a month to complete the occupation. When the occupation has been made, Japan will be able to con-

trol the formation of a new government."

The commander-in-chief requests that notification of his action be communicated to the powers and that the result of the notification be communicated to him at an early date."

MILFORD ESCAPES SHUTOUT

BY NARROWEST POSSIBLE MARGIN, AND BY A GIFT AT TRIST.

Duba Twirls Lavinable Ball and Is Given Air Tight Support Save for One Short Period—Smith's Offerings, Usually Pivoting, Touched Freely for 12 Safe Bingles.

Weidman's Cubs toyed with the Milford aggregation at Wilber park in that village yesterday and but for a combination of gifts combined in one inning, all showered upon one lone individual, the denizens of our neighboring village would never have dented the plate or come within a row of appreciates of scoring. The donation was, however, about the only thing that happened to give the rooters for Milford a chance to cheer unless it be now and then when some Cub swung at a ball and missed, which was not often enough to keep their voices tuned up to concert pitch. Finally when "Duffer" had the game sewed up tightly in his vest pocket he switched his whole outfield to the bench and sent Gardner, B. Weeks and Brown out into the daisies to scamper about and they got more chances out there in four innings than their predecessors had in five as in the first five innings but one put out had been made in the outfield and but two lone singles had been credited to Milford.

Duba was in the box for the visitors and he pitched a strong, heady game and was invincible with men on. He deserved a shut out but the luck was with the Milfordites and they managed to get one runner across. Duba was given nearly faultless support, one poor peg to second being the only semblance of an error made behind him. The star fielding play was made by Duval who in the second inning after Hickey for Milford had sent out a safe single and Zietman, the Schuyler Lake lad, had rapped out what looked like a Texas Leaguer well back of second's fielding position, rushed backward and by quick work managed to thrust his gloved hand under the ball and cling to it. He tossed the ball to Baird who is usually there, when needed and was at second ready for the ball, completing a fast double play that even the paragon Milford crowd was inclined to give a hand. It was one of the best bits of fielding play that the Cubs have pulled this season and did no little toward taking the heart out of the Milford bunch.

Milford's lone run was gotten in the fourth after Wilber had fanned and Cushman's drive to center had been captured by Boylan. VanDeWalker drew a pass after two strikes had been given him. When he started to steal second, Tyrone made a poor throw which got by Duval and before the ball was recovered Van had reached third. Then rather than be too penurious Duba sent a wide one which Tyrone thought was too easy and when it got past him Van crossed-ed with the Milford single rally.

The Cubs started the run getting at the word go and kept adding a few to show how it is done. Duval, the first man at the plate for the Cubs, hit safely and Weeks sacrificed him to record. Baird followed with a single, sending him across and took second, when an attempt was made to get Duval at the plate. Marone followed with a timely two bagger, sending Baird in. Marone was caught trying to purloin third and Tyrone trying to pilfer second, after Seiber's error had given him a life.

The Cubs took another in the second on a couple of hits and a passed ball and another in the fourth on a fielder's choice, a steal, a passed ball and sacrifice fly to the outfield. In the fifth Duval started something again by laying down a bunt quite unexpectedly and when Freddie Weeks attempted to sacrifice him to second his out had just too much speed to permit Smith to get it and the grass retarded it sufficiently so that Weeks beat it to first, getting a hit. Baird came across with a hit, sending Duval in. Weeks getting second. He stole third and came in on Tyrone's sacrifice fly to right field. The Cubs added one more in the seventh and again in the eighth. In the ninth, Weidman batted for Marone, sending a grounder to short necessitating sending Brown to play first base in the last half and Kinnear to right field.

UNCERTAIN DAY ON

THE STOCK EXCHANGE

Market Wavers at Opening, Strengthens During Day, and Reacts Just Before Close

New York, July 28.—The stock market wavered at the beginning of today's session, strengthened in spots at midday, and made further progress later, but reacted just before the close, when the professional element renewed its attack upon selected issues, notably steels and equipments.

There were few traces of extensive liquidation in the decline. Trading fell away to a marked extent in volume and scope. Money was decidedly easy, the rates for call loans falling to seven per cent in the final hour, after opening at eight per cent, the latter quotation being one per cent under yesterday's initial rate.

The United States Steel report for the year's second quarter, issued after the close of yesterday's market, was disappointing to bullish interests and gossip continued to deal adversely with conditions in other important lines of industry, especially the motor and leather trades.

Popular bonds, including Liberty and international issues, were inclined to ease moderately on enlarged dealings. United States bonds were unchanged on call.

NINE SPOTS WIN EASILY.

D. & H. Shop Team Loses 7-Inning Game, 4 to 1.

Last evening, a good game of baseball took place at Neahwa park when the Nine Spots met the D. & H. Shop boys and pulled off the honors. The Nine Spots started the scoring in the first and the Shop Men were unable to make things look dangerous for them except on one occasion, when they pushed across a lone run and seemed about to rally. Hobbs, the Nine Spots' pitcher, was in his element, allowing only two hits and striking out 13 of his opponents.

Shop Men, who was on the mound for the Shop Men, pitched good ball, however, and would have done better if he had been backed by his teammates.

THE AMERICA'S CUP

The contest for the America's cup, which during the past two weeks has been the theme of general interest among the sea-sportsmen, and scarcely less among citizens who while imbued with a spirit of fairness still were patriotically anxious to see the home boat win, came to an end a few minutes before 8 o'clock Tuesday evening, when the Resolute crossed the finish line a mile ahead of the challenging Shamrock. It was a contest marked in the first race by accidents and later by postponements and failures to make the race in the required time, and it was not remarkable that before the end public interest to some extent abated. Still there remained a faithful contingent who to the last minute stood by their favorites and kept in touch with the position of the two boats until the winner in the last race had crossed the line.

Sir Thomas Lipton has always been a favorite among American yachtsmen on account of the excellent qualities of sportsmanship which he has exhibited. He has not been unduly elated when winning and not dispirited or depressed when losing. He regretted the accident to the top gear of the Resolute, which assured the first race to the Shamrock, he was pleased but not offensively elated when his boat won the second. He saw the third and fourth races lost with the same equable temper, and when the last race was sailed and he knew that for the fourth time he must sail home without the coveted trophy, he accepted the result like a sailor and gentleman. "We did our best and have been beaten fair and square. We have been treated with the greatest fairness and sportsmanship and I am taking home the very best memories of the contest. I have no excuses to offer. Resolute is the best boat."

Everybody is glad to see the cup won first so many years ago, remain in the United States. But if it were to have been lost, everybody would have rejoiced to see the winner Sir Thomas Lipton.

THE INCOME TAX BURDEN.

The federal income tax in the United States for the fiscal year ended June 30 again shows to what extent the revenue law throws the burden on the state of New York. The total revenue tax collected in the United States during the year was \$5,410,384,874.90, and of this sum New York turned in \$1,410,589,276 or more than one-fourth of the whole.

The inflow of money has been enormous. The outflow does not show such a slowing up as the country expected. On March 31, 1920, sixteen months after the signing of the armistice, the number of government employees at Washington was 96,266, which is but 17,344 less than when the armistice was signed. The only department showing any material decrease is the War department.

The government has on its payroll at Washington three times the number it had in April, 1917. The departments of state, the treasury, post-office, interior and commerce each shows an actual increase since hostilities ceased. In the country as a whole on March 31, 1920, there were 734,761 government employees, or within 9 per cent of as many as the high mark.

YOU WILL BE ABLE TO SEE

All the Stellar Features of the Hagenbeck-Wallace Shows.

Press critics, who have seen the Hagenbeck-Wallace circus, which is to appear in Oneonta for two performances on Friday, July 30, have said that one very pleasing feature of it is the general management, which enables the visitor to see the whole show. If this is true and there seems to be no reason to doubt it, one of the chief objections to the modern circus has been overcome. It will be to away with a complaint so often heard "there was so much going on all the time that I didn't get to see it." Thus the Hagenbeck-Wallace management has not only achieved the reputation of being the best show of its kind ever produced, but has added to its greatness by placing it within the range of two ordinary eyes.

In this connection it might be well to mention other facts. There are never any "tired backs" at the Hagenbeck-Wallace circus. Another innovation. From time immemorial circus goers have found themselves fatigued by the unnatural position in which they were compelled to sit during the show. This condition has been entirely eliminated by the Hagenbeck-Wallace management, by use of their patented seats, in use by this show only.

It is good news, not only for women and children and aged people, but for everybody. For the combination of a show of the magnitude of the Hagenbeck-Wallace circus and the attending comfort for patrons is something which will appeal to all.

GALLANT UPTON'S REGULARS

Soldiers of '61 Hold Forty-Fourth Reunion at Ilion on Tuesday—Twenty-Eight Members of 121st Regiment Attend.

The famous 121st New York Volunteers, a regiment of which Emory Upton, afterward brigadier general, was colonel, held its forty-fourth annual reunion on Tuesday of this week at Ilion. Twenty-eight members of the association were present, and with them were the wives, sons and daughters of many, so that there were about sixty in attendance. Thinned as the ranks of the veterans have become—there have been 141 deaths during the past six years—the same enthusiasm and the same spirit of local fellowship was manifested, and everybody heartily enjoyed the event.

The morning session began at 11 o'clock and continued until 12:30, when an excellent dinner was served by the Woman's Relief corps of Ilion in the basement of the Baptist church, in which edifice also the regular sessions were held. The afternoon session began at 2 o'clock and adjournment was taken at 5 o'clock. During this session addresses were delivered by Rev. D. W. Loman and Rev. E. D. Barnes, pastors of Ilion churches, and at the close of the meeting there was a special feature in the form of very interesting stereoscopic views taken by Lieut. James H. Smith and shown upon the screen by himself. It was expected that Mrs. Douglas Robinson would be present, but as one of the veterans said, "She is over in Saratoga helping to unofficially nominate a state ticket."

At the business session the following officers were elected: President, Rev. Isaac O. Best of Broadalbin; vice president, W. H. Jones of Herkimer; second vice president, H. O. Eason of Schuyler Lake; chaplain, W. E. Kimball of Sauquoit; secretary and treasurer, C. J. Westcott of Oneonta; color bearer, Fred Bruce of Ilion. In addition to the above Henry W. Caldwell of Jordanville, C. J. Westcott of Oneonta and W. H. Jones of Herkimer were designated as delegates to attend the celebration of the anniversary of the battle of Antietam in Maryland on August 17. The alternates are J. H. Walrath of Johnstown, George M. Lemon of Waterville and Dennis A. Dewey of West Winfield. The delegates and alternates were appointed by Col. Clinton Beckwith of Herkimer, who is a member of the State Monumental committee.

Among those in attendance from Otsego county were Mr. and Mrs. Westcott of Oneonta, R. L. Garlick of Colliers, C. N. Merrill of East Worcester, Mr. and Mrs. Charles Nichols of Morris, Mr. and Mrs. Harrison Hadsell of South Valley and W. A. Johnson and Henry O. Eason of Schuyler Lake.

The address of welcome was given by Editor R. E. King of the Ilion Citizen and was responded to by W. W. Young, a member of the regiment.

There are now about 100 surviving members of the regiment, which in general was enlisted in Otsego and Herkimer counties.

WHAT TOWNS GET HUN CANNON?

If Bill Passes Five German Trophies Come to Congress District.

There has been much speculation as to what disposition will be made of the captured German cannon, which were surrendered to our troops during the World War, and as to what cities and towns will be favored in the division. So many bills have been introduced in congress relative to these spoils of war that a blanket measure has been prepared with a view to making the division as fair as possible. The bill, which has passed the house and will probably meet the approval of the senate when it meets in December, provides for a pro rata distribution among the states on the basis of number of men in service.

There were 32-2 pieces of artillery and trench mortars captured by the Americans, and of these, 2,173 are available to the states. On the basis of distribution above explained, the quota for New York would be 228, which is an average of one to each congress district. In the districts the division will be made on the representative basis.

In this congress district, a natural disposition would be one cannon to each city or town with an armory. This would include Oneonta, Binghamton and Watertown. A fourth might properly go to Norwich, largest town and only city of Chenango and it has been suggested that the fifth might suitably be awarded to Cooperstown, which has a platoon of the State Guard, the only one in fact in the district.

Says Pile Remedy Worth \$100.00 a Box

I have had itching piles ever since my earliest recollection. I am 35 years old and have suffered terribly. I have tried many remedies and doctors, but to cure about 5 weeks ago I saw your ad for Peterson's Ointment. The first application stopped all itching, and in three days all soreness. I have only used one box and consider I am cured, not feeling any return of the trouble for 6 weeks. You have my grateful, heartfelt thanks, and say every one that has this trouble see this and give your ointment, that is worth a hundred dollars or more. A trial, sincerely yours, A. Newth, Columbus, Ohio.

WOULD SEND STEEL ROCKET TO MOON

The moon is the latest field selected for the planing of American rockets. This time Professor Goddard comes to the fore with a steel instrument (which he is shown holding in his hand) capable of traveling at an average speed of 8,000 feet a second in exploding gas. With a rocket of this kind the professor believes he will have little difficulty in landing a message on the moon.

WAR "MYSTERY" MADE CLEAR

Men on the Leviathan Now Understand How Their Officers Detected Them in Smoking.

Men who sailed on the Leviathan when she was being used as a transport will learn with interest the explanation of a "mystery" of the giant liner in those war days, a mystery which has been the subject of many a midnight conference in the lee of the deckhouse. Only recently a former officer of the Leviathan told the story. It appears that several of the crew sought a lower hold far from the haunts of the officers on duty and there, believing themselves carefully concealed, they smoked to their hearts' content. But the ship had a fire detection system consisting of a series of pipes to the holds, through which a suction fan is continually drawing air samples to the wheelhouse. Thus the officer on duty there noticed the curling wisps of smoke coming out of the pipe from one of the lower holds. Sniffing the smoke he detected the old familiar odor of tobacco.

It was an easy matter to hurry down and catch the men in the act and start them on a round of extra duty, which cured them of smoking aboard ship. They were puzzled to know how the officer had traced them. The hold was way down near the keel, far from the wheelhouse and there had not been another man within many yards of their position. They knew no officer had followed them and they took it for granted that there was no direct connection between the hold and the wheelhouse. And no one enlightened them during many trips to France.—New York Evening Post.

SERVED IN ORIENTAL STYLE

Magnificent Banquet Given by King Hussein of the Hedjaz to Lord Allenby.

A banquet given by King Hussein of the Hedjaz to Lord Allenby, the British high commissioner, as described by an Arab correspondent of the London Times on March 2, was a striking example of oriental magnificence. After preliminary visits and military reviews, in which the Bedouin cavalry dashed by at full speed, firing their rifles, the banquet was held in true Arab style in the municipality buildings at Jeddah.

On the table, which was eighteen feet broad by thirty feet in length, barefooted waiters dressed in rich Arab costume walked about helping the guests, 70 in number, to slices of the joints of roasted half sheep stuffed with almonds, rice and spices. Each guest had three or four plates, and was surrounded by some 20 or 30 dishes of salads, fish, roasted chickens, plump of mutton and sweets of all descriptions. The king's band of musicians played throughout the banquet.

"MARY'S ANKLE"
A Rhymed Review
By Russell Holman
Out of luck and out of dough.
Young Doc Hampton faked a wife;
Rich old uncle wasn't slow;
Wished to see her in the life.

Death of Mrs. Jacob Klein.

West Oneonta, July 28.—Word was received here late today of the death this afternoon at her home in Syracuse of Nellie Potter, daughter of Daniel Potter of this place and wife of Jacob Klein of that city. Her age was 43 years and she was a native of Oneonta city and well known there in her early life. She is survived by her husband, her father and stepmother, a half brother, Daniel V. Potter, also of West Oneonta, and a niece, who has resided with her at Syracuse. Mr. and Mrs. Potter leave in the morning for Syracuse and it is expected that the funeral arrangements will await their arrival in Syracuse.

LOCAL MENTION.

The Lough picnic at home of Mr. and Mrs. Edward Risley at Hartwick on Wednesday, August 4.

It is hoped to arrange for a twilight baseball league during the month of August, with a number of the local amateur teams participating. All interested in the formation of such a league are requested to meet at the Y. M. C. A. rooms this evening at 7:30 to talk over the project.

Meeting Postponed.

City band rehearsal postponed until Sunday evening at 7:30.

SERVICE MEN WILL GET MEDALS

Applications Must Be Made in Person—Medals Come Through Legion.

All Oneonta and Otsego county men who served in the army during the month of August, with a number of the local amateur teams participating. All interested in the formation of such a league are requested to meet at the Y. M. C. A. rooms this evening at 7:30 to talk over the project.

For service during the World war four kinds of Victory Medals are being awarded on the application of those who are eligible. The first is called the domestic service medal and is made of bronze with a double rainbow attached. Another for foreign service consists of a bronze bar across the ribbon on which the word "France" is inscribed. A third is for service in battle and has the name of the battle on the bar with a star above it. The fourth medal is also awarded to the applicant who has taken part in at least two battles and has received one citation for bravery or distinguished service.

GIVEN WEEK'S VACATION.

Despite Necessity to Increase Output at Least 25 Per Cent During August.

The employees of the Quality Silk mills in the city are having a week's vacation with pay, despite the fact that the company is in need of additional help and must in some manner increase its output 25 per cent during August. The vacation was granted in appreciation of the hearty support given the company in the past and as a deserved recognition of loyalty.

This is the more commendable from the fact that the company needs the increased output and is bending every energy to secure additional help for August.

Mr. Huntington Sails for Europe.

A letter received yesterday by a friend in Oneonta from Henry E. Huntington, who is now in New York city, states that on Saturday he will sail for Europe, where he expects to spend the summer. In his note he also expresses his regret at not being able to meet the Klippanck boys this summer, and also the hope that he may be able to be present at some time at one of their reunions. He has been, he states, in New York city since the Fourth and needless to say he missed the delightful California summer weather.

Farleys on Summer Outing.

Rev. Dr. and Mrs. E. J. Farley leave Oneonta today by auto for a summer sojourn in the Adirondacks. They will visit for a time at the home of the former's brother at Glens Falls and later with relatives and friends at Malone, a former pastorate of Dr. Farley. Afterwards they will visit the Thousand Islands, and for some time will be in camp in the Adirondacks. They will be absent for one month.

Real Estate Transfer.

Mr. and Mrs. Dwight Birdsell of Franklin have purchased of Perry E. Birdsell the house at 22 Central avenue. Mr. and Mrs. Birdsell are now in possession of the property and will occupy it as a residence about September 1st.

Vincent Family Reunion.

The annual reunion of the Vincent family will be held on Saturday, August 7, at Clifside. It is earnestly desired that all relatives make an effort to be present.

IMPERIALS HERE TODAY

Third Game of \$2,000 Series Will Be Played On at Newbwa Park.

There is great interest among local baseball fans over the outcome of the game to be played this afternoon at Newbwa park, when the Oneonta Cubs and the Binghamton Imperials will meet in the third game of their series for a purse of \$2,000. The Cubs have a two-game lead on the Imperials and this afternoon will try to make it three straight. Davis, star Cub southpaw, will probably be on the mound for the locals and Westman plans to put in his strongest lineup.

Either Pumpelly or Raleigh will do the twirling for the Imperials. Both boys are steaming the pill in big league style. Fay will do the catching. Neil Sullivan, McMahon and Murphy are slated to do the gardening. With the addition of the four new players and Sullivan on the lineup, the hitting as well as the fielding strength of the Imps has been greatly increased.

Lack of good hitting has meant the loss of many games for the Imperials, but with their new lineup they should give 'em all a tussle. Leo Hanley is no "dub" in swinging the willow, Neil Sullivan is as trusting a batter as there is to be found. O'Brien is smashing the pill on the nose and King and Gilmore are both good sticklers. Fay, Murphy and McMahon are the pick of the old Imperial lineup when it comes to batting averages. Although the Oneonta boys have got away to a two to nothing start on the Imps in the series, the Binghamtonians with their strengthened team will make them travel to win out.

SECRETARY WALTER DEPARTS.

Leaves This Morning for Rochester for a Brief Respite.

Louis A. Walter, for the past two years secretary of the Oneonta Chamber of Commerce, a position which he resigned a few weeks ago, leaves this morning for Rochester, where he expects for a little time to remain. While his plans for the future are not yet fully determined, it is known that he has been tendered two excellent positions in Chamber of Commerce work. He is, however, considering two in the brokerage business, in which prior to engaging in his more recent work he had been employed for about 30 years, for 21 years in an office of his own at Dunkirk.

Those familiar with the work of Mr. Walter for the local Chamber are most appreciative of his ability and energy and also of his sturdy character, which has made him a creditable representative among all classes of men and in every position of the organization. He will carry away with him the cordial best wishes of very many and the warm regard of those most intimately associated with him in the work for the two years.

Car Damaged by Fire.

Late Tuesday afternoon an Oldsmobile eight owned and driven by a Cuban, a guest at the Stamford hotel, caught fire while it was passing the Morgan homestead and but for the prompt action of George Waters, the Morgan chauffeur, who rushed out with an extinguisher, it would probably have been a total loss. With the owner at the time was his family, consisting of a wife and four children, none of whom were harmed. The damaged car was towed to the Brannan shop, where it will be repaired by Charles C. Higgins, who later took the family to Stamford. The fire was about the engine which was quite badly damaged. The name of the owner could not be learned.

Married 55 Years Ago.

Mr. and Mrs. Leonard Ward will celebrate their 55th wedding anniversary today at the home of their daughter, Mrs. Fred Murdoch, on the Emmons road. Dinner will be served for a family party at 5 o'clock. This evening Mr. and Mrs. Ward will be pleased to meet the friends and neighbors who call at the Murdoch home. Mr. and Mrs. George Saunders of Bayonne, N. J., have arrived for a visit with friends and to attend the anniversary. They are now the guests of Mr. and Mrs. Frank McFee.

"Y" Boys Enjoy Outing

The "Y" boys started out yesterday afternoon on their camping expedition and over-night hike. Around fifteen reported at the "Y" and others may have joined later on. The location which has been chosen for the camp is near the river and also on the flats of the Russell farm and will therefore be an ideal site. Both bathing and other athletic sports will be available to the boys who are all anticipating a very enjoyable time.

Grand Picnic of Past Noble Grands.

The Past Noble Grands of Otsego county held a business meeting and picnic yesterday afternoon at the camp of Mr. and Mrs. U. A. Ferguson on Goodgear lake. There were 24 members of the association present, representing Oneonta, Sidney, Unadilla, Hartwick, Schenectady and Milford. A delicious dinner was served at noon, and there was a business session in the afternoon, after which the time was pleasantly spent in a social way. Supper was served about six o'clock and a little while after a day of unusual enjoyment closed for all the visitors.

CROSSING IS DANGEROUS

SO DECLARES COMMISSIONER IRVINE AT ALBANY AT HEARING YESTERDAY.

Referring to the Lower Crossing at Unadilla Over the Tracks of the D. & H. Company—Only Question Being How Shall the Public Be Protected There.

At Albany yesterday, during the hearing of the show cause order requiring the D. & H. company to show cause why the Public Service commission should not require that the lower crossing of the D. & H. track in the village of Unadilla be protected, Commissioner Frank Irvine of Ithaca put short all discussion of the need of protection with the declaration that the crossing is a dangerous one, which all must concede, the only question that need be considered is in what manner it is to be protected. It is hinted that Commissioner Irvine has personal knowledge of the crossing and of narrow escapes from accidents there. The matter was before the commission when the government took over the railroad and since the recent fatal accident there, when two lives were sacrificed, the commission recalled the subject.

The D. & H. company was represented by Newton R. Cass of Albany, associated with Lewis E. Carr of the law department of the company with Chief Engineer McMartin, his assistant Mr. Roberts and others appearing as witnesses. The company endeavored to show that the crossing is not exceptionally dangerous and exhibited pictures of the spot. It offered proof of a bill board that it had caused to be removed and of shrubs that had been cut.

Attorney Charles C. Flaesch, who represented the village of Unadilla, made it clear that it was trains approaching on the right of users of the public highway going in either direction that were the most to be feared and that in that respect little could be done except to place a flagman at the crossing, as the public could not possibly see what is approaching on the right.

The D. & F. officials were inclined to insist that a warning signal operated electrically that displays a red band or signal during the daytime and a red light at night would be sufficient protection, but it was argued by Mr. Flaesch and others that a flagman seemed to be demanded from the nature of the crossing and the volume of traffic that crosses over it. It is on the main route and macadam road between Albany and Binghamton and over it much through traffic as well as local passes.

At the conclusion of the hearing, Commissioner Irvine announced that he would report the hearing to the full commission which would decide what protection is required at the crossing and that as soon as it could be considered by them a decision might be expected. That it will be given serious consideration was evident from the interest displayed by Commissioner Irvine.

Dedication of Salvation Army.

The public is invited to the services to be held this evening in connection with the dedication of the Salvation Army hall, at the corner of Main and Grove streets. The services will be in charge of Colonel McIntyre, a prominent Salvation Army official.

From 7 to 8 o'clock, a concert will be given at the corner of Main and Broad streets by a selected group of the national staff band. These musicians have an excellent reputation and the concert will undoubtedly be well worth hearing.

Immediately following the concert, there will be a flag raising in front of the army hall. The evening's exercises will close with inside services at 8:15 at which Mayor Ceperley will be one of the speakers.

Golden Anniversary Today.

Mrs. Luzerne Crandall of Bisbee, Arizona, arrived in the city last evening to spend the month with Mr. and Mrs. Luzerne Westcott and other relatives here. Her arrival here is timed to permit her to attend today the celebration of the golden wedding anniversary of Mr. Crandall's grandparents, Mr. and Mrs. Westcott, which will be quietly observed at the home of their daughter, Mrs. Minnie Lunn, Walnut street, the affair being a family one owing to the fact that Mr. Westcott is recovering from a recent severe illness. Mr. Crandall, who is now principal of the High school at Bisbee and has won his way to an honored position in that state, is expected to arrive later for at least a two weeks' stay. Mr. and Mrs. Arthur L. Westcott of New York city also arrived last evening to be present for the anniversary today. They will remain over the week-end at least.

SALVATION ARMY DEDICATION

Exercises This Evening at Hall on Main street—Headquarters Band from New York Will Be Present

Arrangements have been made with the Salvation Army officials of New York to have their splendid brass band of versatile musicians in Oneonta today.

This aggregation of talented musicians is composed of Salvation Army Officers and employees of the organization and none receive any financial remuneration for their musical services. The band has traveled extensively, and musical critics have commented most favorably on the high standard of efficiency reached.

Accompanying the musicians will be one of the leading officers of the Salvation Army on this continent—Colonel William A. McIntyre, D. D., who has charge of the operations of the organization in the states of New York and New Jersey, and who is known from the Atlantic to the Pacific as a great preacher of righteousness. He is the father of the two famous McIntyre sisters who did welfare work so magnificently in France during the War, frequently making hot coffee and doughnuts under shell fire.

The party is traveling by automobile, visiting twenty cities where great gatherings will be held, dedicating new properties, and burning mortgages which have been paid off from the recent Home Service Drives.

The band will be in the city in connection with the dedication of the Salvation Army hall, which will take place this evening. The local clergymen have also been invited to take part in the services. A general invitation to all citizens is extended.

PUBLIC LIBRARY ACTIVITIES

Large Increase in Circulation Since Removal to New Quarters—Many Additional Borrowers in July.

There are some extremely interesting data for the library activities during the first two weeks after the removal of the collections to the new building.

On the opening day, July 8, the circulation was 517, the latter day, the largest preceding one-day number of books to go out being 495. The following Monday and Saturday having 398 and 365 respectively, all good "winter records," rather than the usual summer time circulation, when reading is at its lowest. The complete record for the two weeks totaled 3,097, which is 1,250 more than for the corresponding time last year.

There were 29 permanent borrowers added, 20 of them children of 12 or under, and 160 temporary borrowers, of whom the majority are students at the summer school, with about 20 divided between students and teachers here for their vacations and children who return each year for a summer visit with relatives and who always can be counted on to make an early visit to the library to establish borrowing and reading relations for the season.

These children show a fine appreciation of the many good books to which they have access, and a businesslike feeling of responsibility to use the books well and return them promptly.

There is a constantly increasing use by mothers of the books for the littlest ones, who are too young to read and to have their own cards, but who enjoy the magazines and books carefully selected for their introduction to the delights of reading.

Charged with Forgery.

Lorenzo Miller of Otego is in the Delhi jail, charged with forgery and held to await the action of the next Delaware county grand jury. It is alleged that Miller received an order from Floyd Kelsey to secure for him his pay check from the Riskey Lumber company. Miller got the check but instead of handing it over to Kelsey is stated to have induced two children to sign his name and that of Kelsey thereto. Afterwards he cashed the check, and for this offense was arrested by the state troopers.

FARM LABOR SITUATION

Improvement Association Willing to Bring Help to County if Needed.

The Otego County Improvement association will make an effort to bring foreign families to the county to do labor upon farms, provided they are wanted. The matter was taken under consideration by the executive committee at its last meeting on July 21st, and it was decided to leave the decision in the hands of farmers themselves. Provided they decide in the affirmative, the project will be added to those which are already being carried out. Each farmer who reads this article is requested to give his views to the manager of the association.

Address letter to Improvement association, Cooperstown, N. Y.

The question to be settled first is whether or not there are two or more farmers in a given community who have tenant houses upon adjoining farms which they own, and who would be willing to employ the man of the family, teach him our ways and some English. Members of the family will undoubtedly also seek employment. The association would then endeavor to find the people to fill the positions.

It is deemed unwise by the committee to attempt to get such people from the cities of our own country, rather get them direct from the docks at New York, as they land from their native country where they have worked upon land.

It is also believed that it would be useless to attempt to locate one family in a community. There should be two or more in order that they may have the benefit of each other's society.

The fact that 500,000 Mexicans have migrated into the southwestern part of the United States has solved the labor problem of that area.

Why not Otego solve its labor problem in a similar way? If the reader happens to be interested he should plan now for 1921, by corresponding with the Improvement association.

Raymond Marks Married.

The many friends of Raymond Marks, a former resident of this city and for a long time a valued employee of The Star office, will be interested to learn of his marriage to Miss Sophia Nicklaus on Monday, July 26, at S. S. Peter and Paul's church, Elmira. Father J. J. Lee was the officiating clergyman. The bride wore a suit of navy blue serge with hat to match, and carried a bouquet of sweet peas. They were attended by Mr. and Mrs. Edward C. J. Marks, the former a brother of the groom. Later a pleasing wedding breakfast was served at which covers were laid for 12. The color scheme for the breakfast decorations were pink and white. Later Mr. and Mrs. Marks left on a wedding trip to Buffalo, Niagara Falls and Rochester and on their return they will be at home at 520 W. Second street, Elmira. Many friends in Oneonta will join The Star in extending congratulations and heartfelt best wishes.

SHOCKING CRUELTY REVEALED

Russian Charged with Breaking Jaw Bone of Young Boy.

A shocking instance of cruelty is shown in some facts that have just been disclosed. Andy, alias "Tony," Rakova, a Russian, who has been employed in the city for some time, was arrested for assault in the second degree and when arraigned before Judge Huntington on Tuesday, he waived examination and the case was put over until August 27, when it will be tried in the local police court.

Rakova is alleged to have struck a five year old boy in the face with such force that his jaw bone was broken and eight teeth were dislodged. As a result of the blow the lad was taken to the hospital, where he suffered with blood-poisoning in his face and neck. After remaining in the hospital for some time, he was taken home but his condition did not improve as was expected and an operation was recently performed from which it is hoped that he will recover.

JOHN BARRYMORE in
"DR. JEKYLL and MR. HYDE"
A PARAMOUNT PICTURE

In playing Dr. Jekyll and Mr. Hyde John Barrymore is competing with one who many think was the world's greatest actor—Richard Mansfield. But Lloyd Osbourne, stepson of Robert Louis Stevenson, says:

Barrymore is GREATER than Mansfield in "Dr. Jekyll and Mr. Hyde." It is doubtful if there will be such acting again in this generation or the next. Mansfield's characters were puppets. Barrymore's shows real human beings. A big story, with a Big Star, and a Big Production make this one of the greatest pictures yet released. Coming Soon to The Oneonta theatre.

FRIGHT RESULTS IN DROWNING.

Gloversville, July 27.—Ralph Teetz, 19, of Bleeker, drowned today in Irving pond near here after having become frightened at the leaky condition of the boat in which he was crossing the pond with two companions. Teetz jumped overboard tipping Jarvis Willet out of the boat. Willet, unable to swim, was saved by the third occupant of the boat, while Teetz swam on toward shore. Within four feet of the shore he sank supposedly from cramps.

SIGN TALK FOR MOTOR DRIVERS

Expressive Finger Code Has Been Devised by Theron W. Kilmer, a New Yorker.

FIVE IDEAS OF IMPORTANCE

Numerous Accidents Last Year Were Due to Lack of Knowledge of Conventions of Roads Ahead—Word of Warning Helped.

Last year the reckless and incompetent handling of automobiles in a single state exacted a toll of 1,287 lives, and thousands of persons were more or less grievously injured besides. A lack of knowledge of conditions, ignorance of the state of the road ahead, and failure of the driver to caution another, had much to do with numerous accidents, and the destruction or loss of an immense amount of property throughout the country, writes Robert W. Skerrett in the Scientific American.

The continuously augmenting number of machines and our ever-widening dependence upon automotive vehicles make it imperative that we find some media by which needless sacrifices of life, limb and material can be reduced. Dr. Theron W. Kilmer, a physician in New York city, has suggested that much may be gained in this direction by facilitating intercommunication between the drivers of moving cars. He is convinced that a word of warning at the right time will be of the greatest benefit, and to this end he has evolved a sign language in which a display of from one to five fingers make it practicable for the man at the wheel to signal useful information or to ask another motorist a question which may save much time and trouble.

Amplification of Semaphors.
The code is merely an amplification of the one-arm semaphore by which a driver now indicates that he is about to turn out of line and thus cautions the man behind him to slow up. The signals are all made with the forearm held upright and the hand so placed that the fingers will receive a full measure of light or stand out well silhouetted against a luminous background. Doctor Kilmer has chosen this position as the one likeliest to prevent confusion. As an experienced motorist, he knows how much the other fellow hates to be halted, particularly if he is not to be the gainer; and his desire has been to produce a code of such simplicity that "he that runs may read."

The display of a single finger means "You have a flat shoe"; two fingers warns the approaching or passing car that something is wrong with it. In short, that the machine should be stopped and inspected; three fingers is the query "Am I on the right road to the next town?" a spread of four fingers is the symbol for danger ahead; and when five fingers are shown the oncoming motorist is asked to stop and to lend assistance.

May Save Life.

A flat shoe is not a trifling matter. In ignorance of it a driver may ruin a tire; and the records show that numerous grave accidents have resulted from this wheel defect. Something may be loose or about to drop from a passing car which may entail either loss of property or invite disaster. Prompt inspection will save a tool box or perhaps prevent a wreck. Time and again the stranger has gone miles astray on the wrong road when a nod or a shake of the head from some one informed might have reassured him if on the right path, or brought him around and into the desired highway to the next town.

A danger ahead may be an unsuspected railroad crossing, a sharp turn, a wreck, or an impassable or very bad road. A signal to that effect would cause the driver to slow down and to find out what lies before him. Every decent driver will respond to a rightful call for help, but he naturally wants to be certain that it is necessary that he should stop.

EYE HAS GREAT SENSITIVITY

Wonderful Human Organ Capable of Adapting Itself to Any Possible Circumstances.

On entering a dark room after a stay in the outside daylight the eye at once begins to increase in sensitivity. At first this increase appears to be slow, but after five minutes the increase is quite rapid, the eye acquiring a sensitivity several hundred times its initial value. After 30 minutes' sojourn in the dark the sensitivity still increases, but more slowly than before, and after 45 minutes or an hour the maximum sensitivity is reached. The final sensitivity varies slightly with different people, but in fully adapted condition the eye is easily 5,000 or 10,000 times more sensitive than it was at the beginning.

These facts are obtained from a study of the sensitiveness of the eye in the dark made by Selig Hecht of Creighton university, Omaha, and published in the Journal of General Physiology. Mr. Hecht's study goes to show that the increased sensitiveness is due to a reversible photochemical reaction within the retina, involving a photosensitive substance and its two products of decomposition.

Original Harmony.

A traveler on a walking tour in one of the northern counties came across a solitary old man who, seated in the doorway of his cottage, was fiddling away quite regardless of such trifling conventionalities as time and tune. The traveler listened a while in amusement and then inquired casually: "When do you tune your violin?" The reply came with refreshing ingenuousness: "I don't tune it—it don't sound right if I do."

LEWIS URGES JOINT CONFERENCE BETWEEN OPERATORS & MINERS

Indianapolis, July 27.—Thomas T. Brewer, chairman of the coal operators' executive committee, today was asked by John L. Lewis, president of the United Mine Workers of America, to join him in a call for an immediate joint conference of operators and miners of the central competitive field. The conference would consider the "confusion now existing in the coal industry and the national emergency which has been created."

St. Louis, July 27.—Thomas T. Brewer, chairman of the coal operators' scale committee in the central competitive field, refused to commit himself when asked whether he would join John L. Lewis, president of the miners union, in calling a joint conference of miners and operators to consider the strike situation.

The request of President Lewis has been communicated to the operators without any recommendations, Mr. Brewster later announced.

TO FIX SOFT COAL PRICES.

New York, July 27.—Attorney General A. Mitchell Palmer agreed with representatives of the coal industry at a conference here today to appoint a representative committee which will fix the maximum price for bituminous coal. It was agreed that individuals and firms exacting profits beyond the fair margin fixed by the committee will be subject to investigation and prosecution under the Lever act.

Historic House a Factory.

Apparatus for the manufacture of insecticide soon will be installed in the old Billog house at Tottenville, headquarters of General Howe during the British occupation of Staten Island in 1770 and since then a place of historic interest. Announcement of the sale of the property was made yesterday, and with it came the news that the old house will be converted into a factory.

All efforts to have the state purchase the house and preserve it and its dungeon and secret underground passageway as relics of the War for Independence were unsuccessful.—New York Times.

No one thing plays a more important part at social functions than Biwa tea.

Wastes Time on Trifles.
I have a friend, a most estimable man, who is so conscientious about doing little things to a complete finish that he never allows himself to neglect details of the most trifling nature. The result is that although he is a tremendous worker, his energies are so exhausted on trifles that he has very little strength or time for important things that need his attention.—Orison Sweet Marden in Chicago Daily News.

Wood Rat's Peculiar Trick.
The wood rat or pack rat, common in the northwestern part of the United States, has this peculiar trait: It leaves bits of wood, leaves or trash as substitutes for the materials it carries away.

Beat the Burglar to It.
Much sympathy is felt for the burglars who broke into a house at Herne Hill last week. Unfortunately for them the grocer's bill had been paid the previous day.—Punch, London.

Every time that guide
opened his mouth—
he said something

THREE DAYS from town.

THREE CHANGES of trains.

INCLUDING A ride,

ON A dinky little

NARROW GAUGE line.

THEN FORTY miles more.

IN A river.

TILL THE country road.

PETERED OUT, and stopped.

THEN BY canoe.

THROUGH wooded streams.

TILL FINALLY at the lake.

I MET my guide,

AND WE made camp.

THE GUIDE was native born,

A CHILD of the wilderness.

WISE IN wood lore.

AND THE craft of camps.

BUT ABLE neither

TO WRITE nor read.

BUT WHEN at night

BY THE camp fire

THERE IN the heart

OF THE "forest primal"

AND A hundred miles

FROM HAUNTS of men.

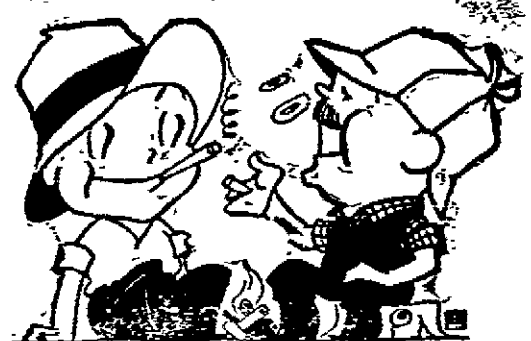

I GAVE him one

OF MY cigarettes.

HE LIT it, drew deep.

SMILED AND said.

"THEY SATISFY."

"SATISFY" just fits Chesterfields. There's something in their mild smoothness that goes right to the spot. Choice tobacco, Turkish and Domestic—a blend that literally can't be copied—a glassine wrapper for their extra protection. On every count, Chesterfields "satisfy."
